Lighting in All Saints'

If you have been into All Saints' recently you have probably noticed that even with the lights on it is quite dim. You may also have noticed that one bulb has been dead for months and not replaced: that is because they are no longer made.

We invited our new church architect to visit yesterday and she agreed that we need to replace the existing scheme with more efficient LEDs. Replacing the outside spotlights with LEDs will make significant savings on the electricity bill.

This work will cost a huge amount, so we need to start fund raising.

Can you suggest any ways to raise funds to get the lighting replacement done?

Would you be willing to help with a fund raising event?
Would you be willing to be a part of the team working on the lighting scheme?
