An example of the winged ox, (not from All Saints'). Ours is too high and too small for me to get a good photo.

Tuesday 18<sup>th</sup> October is **Luke the Evangelist day**. Luke, The author of the third gospel and The Acts of The Apostles, was a Greek physician.

He has become patron saint of doctors and surgeons.

St Luke's little summer, a short spell of fine weather, often occurs at this time.

St Luke's symbol, is a winged ox; a small example can be seen in the east window in All Saints', under the angel holding the omega medallion, the left one of the pair.
